C. W. J. Walker, Madison street,	12.50	2.00	14.50	

C. B. BROMLEY, Collector.

### OBITUARY.

On the seventh of December death visited the home of Mr. and Mrs. Marion McCann and took from them their darling daughter, Goldie, aged four years, eleven months and six days. The writer stood over the bedside of little Goldie and heard her tell her mamma she was going to heaven where the angels live, and that she could see a little narrow road.

So, dear parents, Goldie has gone on as a guiding star, and if you will also travel the road that Goldie saw you will meet her in a home where there will be no more sickness and suffering.

All was done for little Goldie that loving hands could do, but God needed another lily planted in his garden, and Goldie was too sure to stay in this world of sin.

So, dear parents, press onward

and when God sees cause to remove you from this world to a better home, turned will be the key in the portal, fall ringing the golden bar, and, lo, in little Goldie's fingers will stand the beautiful gates ajar.

The burial services were conducted by the Rev. L. M. Copley. She was laid to rest in the Wilson graveyard.

Many requests from Catarrh sufferers who use atomizers have caused us to put up Liquid Cream Balm, a new and convenient form of Ely's Cream Balm, the only remedy for Catarrh which can always be depended on. In power to allay inflammation, to cleanse the clogged air-passages, to promote free, natural breathing, the two forms of Cream Balm are alike. Liquid Cream Balm is sold by all druggists for 75 cents, including spraying tube. Mailed by Ely Bros., 56 Warren Street, New York.

## NEWS OF THE FARM.

### Womanly Wisdom.

Fresh pork is fine eating, but be careful that the little folks do not eat too much of it at a time; and maybe you had better take this advice to yourself.

To prevent eggs cracking when a number are placed in boiling water, let warm water from the faucet run over them before placing them in the dish.

A good way to protect a bed of tender rose-bushes is to bend them carefully down to the ground, hold them in position with stakes, and then cover with leaves, straw or earth.

Never put pork into a barrel that has the slightest smell or taint about it. Wash and scrub it clean, scald it again and again, and if then it is not just right, leave it out where the sun can shine in it a long time. Old Sol is the greatest purifier in the world.

For variety one of these cold mornings try this: Peel some large potatoes and cut a little piece off one end. With a small knife scoop out the inside and fill with sausage meat. Replace the top piece, lay them in a baking dish with bits of butter, bay leaves and salt and pepper over them, and bake until thoroughly done.

### Gumption on the Farm.

To prevent pumps from freezing, drill a small hole, say one-sixteenth of an inch or less, in pump stock—below well or cistern cover, far enough down so that frost will not reach it. With this method the pump is always primed; and, in warm weather, all the water that is pumped is fresh and cool. If desirable to prevent water from vent in pump striking wall of well, place a tin collar around stock, just above the vent; collar should be five or six inches wide, flaring out over vent, and hang just low enough to catch the water.

The best time to break corn stubs is when it is not far from zero weather. If a good heavy pole is used, they will then snap off next the ground and will give no trouble next year, as is sometimes the case when they are poled late in the season and the weather is only moderately cold. Have a good strong pole that will reach across at least ten rows. Put a team on each end. If the pole is small at one end and large at the other, make the weight even for each team by hitching about a foot from the large end, and about four feet from the small end of the pole. If not cold enough to break the stubs all off, first pole all the stalks down one way, then turn and pole them back again. This will bring them all down.

### Practical Farming.

"That practical farming is one of the most profitable professions that can be engaged in when backed by sound judgment and work, has been again exemplified by the sale of a wheat crop that at one time, on account of falling grain and heavy rains, had been given up as lost," says the Winchester Democrat.

"Col. N. H. Witherspoon, of this city, raised this crop on his farm on the Pretty Run pike, and the extreme wet weather of the spring season and tangled and falling grain looked as if the crop would prove a total failure, and he considered for a time the advisability of turning in hogs and cattle and feeding it down. He finally concluded to harvest the wheat, and it was threshed while in a wet condition.

"Col. Witherspoon had erected a new barn that he stripped and made practically air tight, and the wheat was put upon the floors, a number of tobacco heaters put in service and for two weeks the temperature was kept up to nearly one hundred degrees. The grain was carefully handled in the meantime, and turned out to be a fine quality and as dry as a bone.

"Last week Col. Witherspoon finished delivering the wheat to Mansfield's mill, receiving a check for \$4,475, there being 3,581 bushels and the wheat sold for \$1.25 per bushel. In addition to this Col. Witherspoon retained sufficient wheat for seed wheat for the coming year."

### Trouble Makers Ousted.

When a sufferer from stomach trouble takes Dr. King's New Life Pills he's mighty glad to see his Dyspepsia and Indigestion fly, but more-he's tickled over his new, fine appetite, strong nerves healthy vigor, all because stomach, liver and kidneys now work right. 25c at A. M. HUGHES.

For Rent—One store and dwelling combined, only \$10 per month. Worth \$20. It is the best stand in Louisa—G. V. Meek's old stand. Write G. V. Meek, 1591 Ninth Ave., Huntington, W. Va.

Mules For Sale.

One pair mules for sale; weight 2200; ages 7 and 8 years. Write Eugene Wallace, Clifford, Ky.

### Boom for the Ohio River.

A definite organized boom for the rapid completion of the Ohio river improvement was launched in Washington this week.

A few days ago all of the Congressmen whose districts touch the Ohio, including Representatives Cox, Boehne and Dixon, of Indiana and Sherley, James, Stanley, Haddock, Cantrill and Bennett, of Kentucky, received a letter from Congressman Nicholas Longworth, of Ohio, in which he said:

"It has been suggested that would be wise to have an annual meeting of the members of the House whose districts adjoin the Ohio river, to talk over ways and means of procuring speedy legislation for its improvement and forming, if possible, an organization for this purpose. I am writing to you, therefore, to ask if you will come to my house, No. 821 Eighteenth Street, next Monday afternoon, at 6 o'clock, and meet with those who are most immediately interested in this important improvement and this improvement."

This call brought a large and enthusiastic assembly of Ohio river Congressmen to the parlors of the Longworth home. Among those who responded in person were the Kentucky Congressmen from Ohio river districts. A temporary organization was effected, with Representative Dalzell, of Pittsburgh, as chairman and Representative Longworth as secretary. It is their purpose press for the completion, at earliest possible date, of the river improvement under a systematic contract plan that will give continuous nine-foot stage from Pittsburgh to Cairo.

It was decided that the chair should appoint a committee of five to draft a statement presenting the aims of the Congressmen attending the meeting.
